

ROLLO 400 SURFACE MOUNTED DALI-TOUCH DIMMABLE

Pictures

Description

The Rollo is a fixture from the Layers collection that TAL designed together with renowned designer Sylvain Willenz. Typical for the fixtures from this collection, the circular Rollo also reveals its finesse through various layers e.g. the fixture has a subtle uplight around the top layer, creating a floating effect. Rollo is available in different sizes and can be surface mounted or suspended. The combination of contemporary design and functionality makes the Rollo an attractive fixture for general lighting that is essential for the perception of the space.

Specifications (492266)

Colour temperature:	3000k	Application:	Ceiling
Beam angle:	Lamb	Montage:	Surface
Input:	230v 50-60hz ac	Weight:	4,00 kg
Lumen output:	1671	Rotatable:	nvt
Colour display:	82	Tilttable:	nvt
Dimmability:	Dali/touchdim		
Finish:	Textured black + brass
